## Summer Sports Series

All Sorts of Sports, a Genesis Wellness, Ecosystem initiative, is so much more than just sports. It's about creating a special place for your child where they can learn in a supportive and non-competitive environment. It's about coaching techniques that are child-friendly and focus on effort. It's about a comprehensive multi-sports program that is just as effective as it is fun.

In the All Sorts of Sports programs we don't just teach sports to kids, we use sports as a tool to teach kids about life. In All Sorts of Sports classes and camps not only do children get exercise, skill development, and fun, they are learning important concepts that will help them deal with life skills such as cooperation, sportsmanship, teamwork, and listening skills.
